Summary

At Geeksters Consulting Pvt Ltd, our team harnesses data to
unlock strategic insights, with me contributing as a Data Analyst. My
academic journey in Avionics Engineering and postgraduate studies
in Data Science form a robust foundation for dissecting complex data
and steering informed decision-making.

Proficiency in customer success is a hallmark of my approach, where
I integrate data analysis and CRM to amplify client engagement and
foster business growth. Our collaborative efforts in Python, SQL, and
visualization tools have been essential in upholding data integrity
and advancing actionable strategies for our clients.
